

GHS - Globally Harmonised System of Classification and Labelling of Chemicals

Hazard and Precautionary Statements

+ EUH statements based on the European CLP legislation

	GHS01	Explosive		GHS04	Gases under pressure		GHS07	Harmful / Irritant / Skin sensitizer
	GHS02	Flammable		GHS05	Corrosive		GHS08	Carcinogen / Germ cell mutagen / Reproductive toxicant
	GHS03	Oxidising		GHS06	Acute toxic		GHS09	Hazardous to the aquatic environment

P101 If medical advice is needed, have product container or label at hand.	P311 Call a POISON CENTER or doctor/physician.	H200 Unstable explosives.	H360 May damage fertility or the unborn child <state specific effect if known > <state route of exposure if it is conclusively proven that no other routes of exposure cause the hazard>.
P102 Keep out of reach of children.	P312 Call a POISON CENTER or doctor/physician if you feel unwell.	H201 Explosive; mass explosion hazard.	H361 Suspected of damaging fertility or the unborn child <state specific effect if known> <state route of exposure if it is conclusively proven that no other routes of exposure cause the hazard>.
P103 Read label before use.	P313 Get medical advice/attention.	H202 Explosive, severe projection hazard.	H362 May cause harm to breast-fed children.
P201 Obtain special instructions before use.	P314 Get medical advice/attention if you feel unwell.	H203 Explosive; fire, blast or projection hazard.	H370 Causes damage to organs <or state all organs affected, if known> <state route of exposure if it is conclusively proven that no other routes of exposure cause the hazard>.
P202 Do not handle until all safety precautions have been read and understood.	P315 Get immediate medical advice/attention.	H204 Fire or projection hazard.	H371 May cause damage to organs <or state all organs affected, if known> <state route of exposure if it is conclusively proven that no other routes of exposure cause the hazard>.
P210 Keep away from heat/sparks/open flames/hot surfaces. – No smoking.	P320 Specific treatment is urgent (see... on this label).	H205 May mass explode in fire.	H372 Causes damage to organs <or state all organs affected, if known> through prolonged or repeated exposure <state route of exposure if it is conclusively proven that no other routes of exposure cause the hazard>.
P211 Do not spray on an open flame or other ignition source.	P321 Specific treatment (see... on this label).	H220 Extremely flammable gas.	H373 May cause damage to organs <or state all organs affected, if known> through prolonged or repeated exposure <state route of exposure if it is conclusively proven that no other routes of exposure cause the hazard>.
P220 Keep/Store away from clothing/.../combustible materials.	P322 Specific measures (see... on this label).	H221 Flammable gas.	H400 Very toxic to aquatic life.
P221 Take any precaution to avoid mixing with combustibles...	P330 Rinse mouth.	H222 Extremely flammable aerosol.	H410 Very toxic to aquatic life with long lasting effects.
P222 Do not allow contact with air.	P331 Do NOT induce vomiting.	H223 Flammable aerosol.	H411 Toxic to aquatic life with long lasting effects.
P223 Keep away from any possible contact with water, because of violent reaction and possible flash fire.	P332 If skin irritation occurs:	H224 Extremely flammable liquid and vapour.	H412 Harmful to aquatic life with long lasting effects.
P230 Keep wetted with...	P333 If skin irritation or rash occurs:	H225 Highly flammable liquid and vapour.	H413 May cause long lasting harmful effects to aquatic life.
P231 Handle under inert gas.	P334 Immerse in cool water/wrap in wet bandages.	H226 Flammable liquid and vapour.	EUH 001 Explosive when dry.
P232 Protect from moisture.	P335 Brush off loose particles from skin.	H228 Flammable solid.	EUH 006 Explosive with or without contact with air.
P233 Keep container tightly closed.	P336 Thaw frosted parts with lukewarm water. Do not rub affected area.	H240 Heating may cause an explosion.	EUH 014 Reacts violently with water.
P234 Keep only in original container.	P337 If eye irritation persists:	H241 Heating may cause a fire or explosion.	EUH 018 In use may form flammable/explosive vapour-air mixture.
P235 Keep cool.	P338 Remove contact lenses, if present and easy to do. Continue rinsing.	H242 Heating may cause a fire.	EUH 019 May form explosive peroxides.
P240 Ground/bond container and receiving equipment.	P340 Remove victim to fresh air and keep at rest in a position comfortable for breathing.	H250 Catches fire spontaneously if exposed to air.	EUH 044 Risk of explosion if heated under confinement.
P241 Use explosion-proof electrical/ventilating/lighting/.../equipment.	P341 If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing.	H251 Self-heating; may catch fire.	EUH 029 Contact with water liberates toxic gas.
P242 Use only non-sparking tools.	P342 If experiencing respiratory symptoms:	H252 Self-heating in large quantities; may catch fire.	EUH 031 Contact with acids liberates toxic gas.
P243 Take precautionary measures against static discharge.	P350 Gently wash with plenty of soap and water.	H260 In contact with water releases flammable gases which may ignite spontaneously.	EUH 032 Contact with acids liberates very toxic gas.
P244 Keep reduction valves free from grease and oil.	P351 Rinse cautiously with water for several minutes.	H261 In contact with water releases flammable gases.	EUH 066 Repeated exposure may cause skin dryness or cracking.
P250 Do not subject to grinding/shock/.../friction.	P352 Wash with plenty of soap and water.	H270 May cause or intensify fire; oxidiser.	EUH 070 Toxic by eye contact.
P251 Pressurized container. Do not pierce or burn, even after use.	P353 Rinse skin with water/shower.	H271 May cause fire or explosion; strong oxidiser.	EUH 071 Corrosive to the respiratory tract.
P260 Do not breathe dust/fume/gas/mist/vapours/spray.	P360 Rinse immediately contaminated clothing and skin with plenty of water before removing clothes.	H272 May intensify fire; oxidiser.	EUH 059 Hazardous to the ozone layer.
P261 Avoid breathing dust/fume/gas/mist/vapours/spray.	P361 Remove/Take off immediately all contaminated clothing.	H280 Contains gas under pressure; may explode if heated.	EUH 201 Contains lead. Should not be used on surfaces liable to be chewed or sucked by children.
P262 Do not get in eyes, on skin, or on clothing.	P362 Take off contaminated clothing and wash before reuse.	H281 Contains refrigerated gas; may cause cryogenic burns or injury.	EUH 201A Warning! Contains lead.
P263 Avoid contact during pregnancy/while nursing.	P363 Wash contaminated clothing before reuse.	H290 May be corrosive to metals.	EUH 202 Cyanoacrylate. Danger. Bonds skin and eyes in seconds. Keep out of the reach of children.
P264 Wash... thoroughly after handling.	P370 In case of fire:	H300 Fatal if swallowed.	EUH 203 Contains chromium (VI). May produce an allergic reaction.
P270 Do not eat, drink or smoke when using this product.	P371 In case of major fire and large quantities:	H301 Toxic if swallowed.	EUH 204 Contains isocyanates. May produce an allergic reaction.
P271 Use only outdoors or in a well-ventilated area.	P372 Explosion risk in case of fire.	H302 Harmful if swallowed.	EUH 205 Contains epoxy constituents. May produce an allergic reaction.
P272 Contaminated work clothing should not be allowed out of the workplace.	P373 DO NOT fight fire when fire reaches explosives.	H304 May be fatal if swallowed and enters airways.	EUH 206 Warning! Do not use together with other products. May release dangerous gases (chlorine).
P273 Avoid release to the environment.	P374 Fight fire with normal precautions from a reasonable distance.	H310 Fatal in contact with skin.	EUH 207 Warning! Contains cadmium. Dangerous fumes are formed during use. See information supplied by the manufacturer. Comply with the safety instructions.
P280 Wear protective gloves/protective clothing/eye protection/face protection.	P375 Fight fire remotely due to the risk of explosion.	H311 Toxic in contact with skin.	EUH 208 Contains <name of sensitising substance>. May produce an allergic reaction.
P281 Use personal protective equipment as required.	P376 Stop leak if safe to do so.	H312 Harmful in contact with skin.	EUH 209 Can become highly flammable in use.
P282 Wear cold insulating gloves/face shield/eye protection.	P377 Leaking gas fire: Do not extinguish, unless leak can be stopped safely.	H314 Causes severe skin burns.	EUH 209A Can become flammable in use.
P283 Wear fire/flammable resistant/retardant clothing.	P378 Use... for extinction.	H315 Causes skin irritation.	EUH 210 Safety data sheet available on request.
P284 Wear respiratory protection.	P380 Evacuate area.	H317 May cause an allergic skin reaction.	EUH 401 To avoid risks to human health and the environment, comply with the instructions for use.
P285 In case of inadequate ventilation wear respiratory protection.	P381 Eliminate all ignition sources if safe to do so.	H318 Causes serious eye damage.	
P301 IF SWALLOWED:	P390 Absorb spillage to prevent material damage.	H319 Causes serious eye irritation.	
P302 IF ON SKIN:	P391 Collect spillage.	H330 Fatal if inhaled.	
P303 IF ON SKIN (or hair):	P401 Store...	H331 Toxic if inhaled.	
P304 IF INHALED:	P402 Store in a dry place.	H332 Harmful if inhaled.	
P305 IF IN EYES:	P403 Store in a well-ventilated place.	H334 May cause allergy or asthma symptoms or breathing difficulties if inhaled.	
P306 IF ON CLOTHING:	P404 Store in a closed container.	H335 May cause respiratory irritation.	
P307 IF exposed:	P405 Store locked up.	H336 May cause drowsiness or dizziness.	
P308 IF exposed or concerned:	P406 Store in corrosive resistant/... container with a resistant inner liner.	H340 May cause genetic defects <state route of exposure if it is conclusively proven that no other routes of exposure cause the hazard>.	
P309 IF exposed or if you feel unwell:	P407 Maintain air gap between stacks/pallets.	H341 Suspected of causing genetic defects <state route of exposure if it is conclusively proven that no other routes of exposure cause the hazard>.	
P310 Immediately call a POISON CENTER or doctor/physician.	P410 Protect from sunlight.	H350 May cause cancer <state route of exposure if it is conclusively proven that no other routes of exposure cause the hazard>.	
	P411 Store at temperatures not exceeding...°C/...°F.	H351 Suspected of causing cancer <state route of exposure if it is conclusively proven that no other routes of exposure cause the hazard>.	
	P412 Do not expose to temperatures exceeding 50°C/ 122°F.		
	P413 Store bulk masses greater than... kg/... lbs at temperatures not exceeding...°C/...°F.		
	P420 Store away from other materials.		
	P422 Store contents under...		
	P501 Dispose of contents/container to...
